## **"What You Should Know About Your City"**

*"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, property, her government, and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then, reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for best of men and women."*—John Cotton Dana.

## The Mortality of Advertising

THE waste basket is the grave of millions of dollars worth of advertising every year. Keep your advertising out of the waste basket by using mediums that are not thrown away. The City Directory is on the job 365 days in the year and no level headed man will think of the waste basket and the City Directory at the same time.

The Price & Lee Company

# Common Sense

## *About City Directory Circulation*

***The true value*** of advertising circulation is *circulation consulted*.

***To be exact*** by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

***To be conservative*** we will eliminate the sixty Sundays and Holidays when no tests were made.

***For every thousand directories*** sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

**1,067,500**

**Consultations or**

**Circulation Consulted**

## ARE THEY USED?

Just six Price & Loc. directories in customer's use for one year picked at random when the new one was sent.

What a tribute to the knowledge of the man who insists on complete representation throughout his city directory.

Your city directory is where advertising becomes a part of daily life and use.

Richmond Directory Co.  
Newark, N. J.

Let us have advertised our goods to  
in your new city directory publication  
for many years. We have also  
advertised in various other direc-  
tories, all of our advertising being  
based on the fact we could determine  
whether or not our advertising paid  
us.

During the period of one year, we  
have traced business amounts to  
over \$100,000 directly to our adver-  
tising. We thought that you and  
other directory publishers would be  
glad to know this.

Very truly yours,

## Since 1896!

In 1896 the Credit Reporting Co. was launched with the policy of giving The most complete report in the shortest possible time."

This rule, rigidly followed throughout 49 years, has built an organization on a solid basis with the desire to serve efficiently and to be at all times an important factor in your decision as to the advisability of extending or refusing credit to an applicant, whether this be an individual or a corporation.

The membership of the National Retail Credit Association, comprising over twelve hundred agencies throughout the United States, has conceded our reports to be as nearly flawless as it is humanly possible to make.

1. The first group of experiments was designed to determine the effect of the concentration of the solution on the rate of the reaction. The concentration of the solution was varied from 0.1 M to 0.5 M. The results are shown in Table I. It can be seen that the rate of the reaction increases with increasing concentration of the solution.

# Reference Advertising

**H**E who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing order in the bridge between dealer and consumer, and should be part of all national and local campaigns.

**GREAT CITY DIRECTORY  
ORGANIZATION SERVING**

**2,700,000 People** in the most densely  
populated area in America

Annually, with a trained organization within these five states, serving one hundred and forty-one communities, each street and building is thoroughly canvassed for name changes and verification of prior information, after which by trained investigators, sections are again recanvassed to keep our name takers keyed up to a high degree of accuracy.

Through the process of sorting, compilation and still greater refining for accuracy, each name is handled twelve times as it becomes a part of the five departments when combined and printed into city directories, renders a service unsurpassed for those who know that without knowledge, activities become wasteful, confused and subject to duplication.
